

WEST COAST FISH & CHIPS — Statement of Account

Last 3 Months Movement (Combined Account: WES004 + WES002)

Period: 16 June 2026 → 16 September 2026 | Compiled: 2026-09-16

Source: WES004_WES002_COMBINED16092026.TXT — single merged ledger (built by scripts/build_combined_ledger.mjs from the fresh WES002CURRENT16092026.TXT + WES004CURRENT16092026.TXT ERP account enquiries)

Accounts: WES002 (historical, migrated ~Dec 2025) + WES004 (current active) — same customer, presented as one continuous account

1. Summary

	Amount
Opening balance (15 Jun 2026 close)	R25,036.85
Movement this period	+R4,661.02
Closing balance (as at export)	R29,697.87

Closing balance ties exactly to the combined ERP position (WES002 R7,443.73 + WES004 R22,254.14) — zero variance. WES002's R7,443.73 contributed zero movement in this window (unchanged since 10 Apr 2026); all activity below originates on the WES004 code.

2. Transaction Movement (16 Jun 2026 – 16 Sep 2026)

Cylinder-deposit invoice/credit-note pairs that net to zero (gross-up-and-reverse within 0–1 days) have been stripped from this view per business_rules.md Rule 11 — they have zero impact on the closing balance and only added clutter.

Document compiled from WES004_WES002_COMBINED16092026.TXT, itself built from WES002CURRENT16092026.TXT and WES004CURRENT16092026.TXT ERP account-enquiry exports. Combined collectable balance R29,697.87 confirmed by operator 2026-09-16 (see project.json). Note: the open-invoice/ageing breakdown for this account is separately gated BLOCKED by invoice-tag coverage (see WES004_TAG_COVERAGE_2026-09-16.md) — this movement statement is a raw transaction ledger, not an open-invoice list, and is unaffected by that gate.
