Midlands Petroleum
LPG STOCK RECONCILIATION

STATEMENT OF ACCOUNT: COFFEEBERRY-CASCADES (COF001) - VERSION 5 (SUB-LEDGER POSITION STATEMENT)

Combined LPG Gas & Cylinder Asset Tracker

CUSTOMER:	**COF001**	OPENING BAL B/F:	**R6,552.28** (combined, excl. quarantined documents)
PERIOD:	Aug 2026 → Sept 2026	CLOSING BALANCE:	**R-8,628.22** (Reconciled Total)

Part 1A: LPG Gas Financial Statement

Gas fill invoices, credit notes, and payments since Aug 2026. Payments route to this sub-ledger per debtor config (`paymentLane: LPG`). Documents marked (`split of …`) are mixed gas and deposit documents; the amount shown is this lane's part of that total. (`lane assumed`) means the document is not yet in the database, so its gas/cylinder split is inferred from its amount, not proven.

August 2026

DATE	ENTRY TYPE	DOC #	AMOUNT (R)	RUNNING BAL (R)
01 Aug	**Opening Balance**	—		**-853.72**
20 Aug 2026	Invoice	52691	3,284.35	2,430.63
24 Aug 2026	Payment	45896	-3,284.35	-853.72
26 Aug 2026	Invoice	53619 *(split of R18,700.33; lane assumed)*	3,002.83	2,149.11
26 Aug 2026	Crd Note	15558 *(split of R-18,700.33)*	-3,002.83	-853.72
26 Aug 2026	Crd Note	15803 *(lane assumed)*	-3,002.83	-3,856.55

September 2026

DATE	ENTRY TYPE	DOC #	AMOUNT (R)	RUNNING BAL (R)
01 Sep	**Opening Balance**	—		**-3,856.55**
09 Sept 2026	Bank XFer	7473	3,002.33	-854.22

Part 1B: Cylinder Deposit Financial Statement

Cylinder deposit charges and reversals (-EMPTY / EMPTIES refs). Paired inv+CN rows remain visible; net-zero pairs are expected for standard deliveries. Documents marked (`split of …`) are mixed gas and deposit documents; the amount shown is this lane's part of that total. (`lane assumed`) means the document is not yet in the database, so its gas/cylinder split is inferred from its amount, not proven.

August 2026

DATE	ENTRY TYPE	DOC #	AMOUNT (R)	RUNNING BAL (R)
01 Aug	**Opening Balance**	**—**		**7,406.00**
20 Aug 2026	Invoice	52750	1,725.00	9,131.00
20 Aug 2026	Invoice	52751	2,932.50	12,063.50

Part 1 — Reconciliation Bridge

COMPONENT	CLOSING (R)
Part 1A — LPG Gas	-854.22
Part 1B — CYL Deposits	-7,774.00
Combined (1A + 1B)	**-8,628.22**
ERP CURRENT BALANCE (TXT header)	-16,256.52
Less: quarantined documents held aside	-7,628.30
ERP balance excluding quarantined documents	**-8,628.22**
Variance (Combined − ERP excl. quarantine)	**0.00**

Quarantined Documents (held aside)

DATE	ENTRY TYPE	DOC #	AMOUNT (R)	WOULD POST TO	DECISION
18 Apr 2024	Payment	29492	-7,628.30	1A	QUARANTINED (2026-10-18)

Held aside from Part 1A and 1B and the running balances above, pending review (documents dated before this period are excluded from the opening balances). They remain in the ERP balance, so the bridge shows them as a reconciling line. Record: `config/quarantine.json`.

Ingest Gate

No coverage report found. Run `npm run debtors:ingest-check -- --debtor COF001` before trusting Part 2 qty.

Part 2: Cylinder (CYL) Ledger (Physical Asset Tracker)

Cylinders tracked by physical count. Opening balances per `config/statement_v5.json`.

Review Notes (internal)

Added by `COF001/scripts/run_v5_statement.mjs`; the tables above are shared-generator output.

1. **Lane rule.** Invoices and credit notes are routed by cylinder SKU lines (9.1, 14.1, 19.1, S.1, D.1): cylinder-only documents go to 1B, documents with none go to 1A, and mixed documents are split by line.
2. **Documents not yet in the database (lane ASSUMED).** The 2026-10-16 ERP extract adds 15803 (Crd Note -3,002.83), 15804 (Crd Note -15,697.50) and 53619 (Invoice +18,700.33). The database has no lines for them. 15803 and 15804 equal the gas and cylinder parts of 15558 exactly, so they are routed 1A and 1B. 53619 equals 15558 in total and is assumed to reverse it line for line (1A +3,002.83, 1B +15,697.50). If 53619 was wholly gas, 1A would be R15,697.50 higher and 1B R15,697.50 lower; the combined balance would not change. Replace with database lines once ingested.
3. **Net effect of the 15558 correction.** 15558 (-18,700.33) is reversed by 53619 (+18,700.33) and re-issued as 15803 + 15804 (-18,700.33). The ERP closing balance is unchanged at R-16,256.52.
4. **Custody (Part 2).** Quantities come from the database and have no lines for 53619 or 15804. If 53619 reverses 15558 and 15804 re-issues it, they cancel and the closing quantities are unchanged.

5. **Quarantined payment 29492 (2024-04-18, R-7,628.30).** Quarantined by the operator on 2026-10-18; reason not stated. Initial observation (partly superseded by the update below): ASSERTED from TXT: payment 30219 (12 Mar 2024, -7,628.30) was posted for the same amount against invoice 30276 (9 Mar 2024, 7,628.30). With 29492 also posted, the account is R7,628.28 in credit from 18 Apr 2024 until later invoices absorb it. Not confirmed as a duplicate. Held aside: excluded from Part 1A and 1B and from running balances. Still included in the ERP balance, so the bridge shows it as a reconciling line. Not treated as a cylinder-deposit payment (business_rules.md sections 3 and 4): no allocation to the cylinder ledger and no cylinder write-off. **Update 2026-10-18 (ASSERTED - database evidence (bank and ERP reconciliation tables), not confirmed against the ERP).** Payment 29492 appears to belong to COF002 (COFFEEBERRY-HILTON, bank name 'Coffeeberry Avenues'), not COF001. It was posted to COF001 against COF001 invoice 30276, which payment 30219 had already settled. Evidence: Bank credit 2024-04-18, R7,628.30, described 'Magtape Credit Coffeeberry Avenues 00031096' (bank_transactions, status MATCHED). 31096 is a COF002 invoice dated 2024-04-08 for R7,628.30. That bank credit is approved-matched (EXACT_AMOUNT_DATE) to ERP entry refDoc 00029492 (STAT:102), whose ERP description is 'MAGTAPE CREDIT COFFEEBERRY AVE'. The earlier bank credit 2024-03-12, R7,628.30, described 'Magtape Credit Coffeeberry Cascades 00030276', is the COF001 receipt that payment 30219 recorded for invoice 30276. In the database, transaction_headers shows 29492 with reference 00030276 (COF001's invoice). No payment of R7,628.30 exists on COF002, and every other COF002 invoice from 15 Feb to 15 Jun 2024 has a same-amount payment within days; 31096 does not. The 'observation' above (29492 as a second payment of the same invoice by COF001) is not supported by the bank data: the two R7,628.30 receipts came from two different payers. Not checked: COF002's ERP statement (no TXT in the repo): whether invoice 31096 is still open there, or was settled another way. Whether the ERP has since reposted or reversed 29492. The quarantine on COF001 stands as a hold-aside until the ERP reposts 29492 to COF002. COF002 would then show invoice 31096 paid. This statement is quarantine-adjusted (the payment is dated before this period, so the opening 1A balance excludes it); a statement whose config does not set `quarantineFile` is not adjusted. Reopen when: The ERP reverses, refunds or reallocates payment 29492. Bank statement evidence shows only one receipt of 7,628.30 for invoice 30276, or shows 29492 belongs to another invoice. The operator rules that 29492 is a cylinder-deposit payment (business_rules.md sections 3 and 4 then apply). Payment 30219 is itself reversed or reallocated.
6. **Database coverage.** All invoices and credit notes in the window were matched to the database by document and amount (see `reports/COF001_DB_COVERAGE_2026-10-16.md`).
7. **Generator run.** The shared generator was run unchanged (except as noted) against `data/db_snapshot_2026.json` (rows pulled from Supabase on 2026-10-16) because `DATABASE_URL` is not set in cloud sessions. Fixes made to the shared generator: the TXT header balance regex accepts a minus sign, so credit balances no longer read as NaN; an optional `periodEnd` limits the window and takes the closing check from the ERP running balance on the last row inside it.
8. **Not run.** `npm run debtors:ingest-check -- --debtor COF001` (needs `DATABASE_URL`).

Debtor Position Summary

1. Financial Position

COMPONENT	AMOUNT
LPG Gas Debt (Part 1A close)	R-854.22
Cylinder Financial Balance (Part 1B close)	R-7,774.00
Total Debtor Balance	**R-8,628.22**

2. Custody Position

SKU	NET RETURNABLE QTY	DEPOSIT RATE	CUSTODY EXPOSURE
19kg	-1	R690.00	R-690.00
9kg	-3	R517.50	R-1,552.50
D.1	10	R1,150.00	R11,500.00
S.1	-15	R1,150.00	R-17,250.00
Total	**-9**	**—**	**R-7,992.50**

3. Reconciliation Position

CHECK	FINANCIAL	CUSTODY	VARIANCE
Cylinder Position (1B vs custody)	R-7,774.00	R-7,992.50	R218.50
Sub-ledger tie (1A + 1B vs combined)	R-8,628.22	—	R0.00
